

Part of the Powermax® family, the Powermax125 features a 100% duty cycle for the most demanding hand cutting, mechanized or robotic cutting, or gouging.

Key business benefits

Boost productivity

Finish jobs faster with cut speeds five times greater than oxyfuel on 12 mm (1/2") mild steel

Minimize operating costs

Consumable life up to four times longer than other systems in this amperage range

Reduce secondary operations

Superior cut and gouge quality lets you spend less time grinding and preparing edges

Powermax125. Maximum power and performance.

The Powermax125® cuts thick metals fast and makes short work of your toughest cutting and gouging jobs. It offers a 100% duty cycle for maximum operation time, making it the preferred system for many mechanized or robotic cutting jobs. Smart Sense™ technology automatically adjusts the gas pressure so you can focus on the job and not the setup.

Powermax125 cut and gouge capacities

| Cut capacity | Thickness | Cut speed |
|-----------------------------|----------------|----------------------|
| Recommended | 38 mm (1-1/2") | 457 mm/min (18 ipm) |
| | 44 mm (1-3/4") | 250 mm/min (10 ipm) |
| Severance (hand cutting) | 57 mm (2-1/4") | 125 mm/min (5 ipm) |
| Pierce* | 25 mm (1") | |

^{*}Pierce rating for handheld use or with automatic torch height control

| Gouge capacity | Metal removal rate | Groove profile |
|----------------|------------------------------|---|
| Typical gouge | 12.52 kg/hr (27.6 lbs/hr) | 4.3–7.9 mm D x 6.1–9.9 mm W (0.17–0.31" D x 0.24–0.39" W) |

| Touch output* | 21.9 kW |
|----------------|----------------------------------|
| Torch output** | 125 A x 175 V ÷ 1000 W = 21.9 kW |

^{**}Higher output voltage at the torch plus efficiently designed consumables result in a faster, cleaner cut.

Make short work of your toughest cutting and gouging jobs with the Powermax125.

Our customers' preferred cutting tool for industries including:

- Shipbuilding/ship repair
- Truck and trailer fabrication
- Tank and vessel manufacturing
- Railyard maintenance and railcar fabrication
- Demolition and metal salvage
- Agricultural/equipment maintenance

Highlighted product features:

Easy to use

- No need to change the air pressure Smart Sense™ technology ensures it's correctly set
- Drag cut at full output with a patented shield that reduces dross buildup for smoother cutting
- Superior cut and gouge quality lets you spend less time on grinding and edge preparation
- Electrode end-of-life detection protects the torch and workpiece from damage by automatically stopping power when the electrode is overused
- 100% duty cycle maximizes your operating time

Low operating costs

- Eleven Duramax® Hyamp™ torch styles provide versatility for hand cutting, portable automation, X-Y table cutting, extended reach cutting, and robotic cutting
- Six types of consumables for drag cutting, fine feature cutting, flush cutting, mechanized cutting, plus maximum control and removal gouging

Industry-leading reliability

- Powermax plasma cutters are known to last decades in the field, minimizing maintenance and downtime
- Power supplies and torches are engineered for rugged industrial environments
- Each Powermax component is tested to perform reliably in demanding conditions
- SpringStart™ technology ensures consistent starting and a more reliable torch

Specifications

CE – for use in Europe, Australia & New Zealand - RCM, Serbia, UK – UKCA, Ukraine, and other countries where accepted.

CCC – for use in China

CSA - for use in the Americas and Asia, except China
