TYPE APPROVAL CERTIFICATE

Type Approval Certificate holder:	Hypertherm Inc. 21 Great Hallow Road, Hanover, NH 03755-3117 USA
Equipment:	Plasma System
Model:	XPR300- GS2011M WiFi Module
Manufacturer:	Hypertherm Inc
Type approval No.:	TRC/SS/2017/153
Date of approval:	25/04/2018
Type Approval validity:	One year from the date of approval.

This is to confirm that the above mentioned equipment meets the technical standards applied in Jordan. Moreover, all equipment exported to Jordan of the same type should comply with the specifications mentioned in test reports No:

- RTWU160929001-00A Issued on November 29, 2016, By Bay Area Compliance Laboratories Corp.
 - 102527175BOX- 001C Issued on November 29, 2016, By Intertek Testing Services NA, Inc
- The equipment must be marked with labels showing at least the manufacturer, serial number, equipment type and TRC's type approval certificate No.

This Certificate does not apply to any modified or changed product nor does it authorize its holder to enter the subject equipment into Jordan without having a special permission. If this occurs, TRC has the right to impose any penalties stipulated in Jordan's Telecommunications Law No. 13 of 1995 and its amendments and regulations of the Telecommunications Regulatory Commission. The applicant should apply for renewal before the expiry date for the type approval.
