Conformité SmartSYNC en matière de RFID/communications

810590MU Révision 1 – Avril 2023

Algeria (Français/French)

AVIS

Toute modification n'ayant pas été préalablement approuvée par Hypertherm, Inc. pourrait annuler le droit d'utilisation de l'équipement accordé à l'utilisateur.

Hypertherm, Inc. L'équipement de RFID est exempt de Type d'approbation.

Les appareils sans fil sont certifiés pour une utilisation dans des pays en particulier, car ils fonctionnent sur des radiofréquences réglementées. Ces réglementations diffèrent d'un pays à un autre. Les certificats de conformité relatifs aux radiofréquences (RF) délivrés par les fabricants d'appareils sans fil pour des appareils sans fil intégrés aux produits Hypertherm se trouvent au www.hypertherm.com/docs.

Les utilisateurs de produits Hypertherm possédant des appareils sans fil intégrés sont chargés de s'assurer que chaque appareil sans fil a été certifié pour le pays d'utilisation et configuré avec la bonne sélection de fréquence et le bon canal pour le pays d'utilisation. Les appareils sans fil intégrés dans les produits Hypertherm ne peuvent être utilisés dans des pays où les réglementations relatives à la certification des appareils sans fil ne sont pas remplies. Toute modification ou toute déviation aux configurations, marquages, puissance, réglages de fréquence et autres réglementations locales autorisées pour les appareils sans fil ou les antennes concernant la radiofréquence des appareils sans fil dans le pays d'utilisation peut être une violation de la législation nationale.

NOTICE

**Any changes or modifications not expressly approved by Hypertherm, Inc.
could void the user's authority to operate the equipment.**

Wireless devices are certified for use in specific countries because they use radio frequencies that are regulated. These regulations differ from country to country. Certificates of Radio Frequency (RF) Compliance from wireless device manufacturers for wireless devices integrated into Hypertherm products can be found at www.hypertherm.com/docs.

The user of Hypertherm products that have integrated wireless devices is responsible for ensuring that each wireless device has been certified for the country of use and configured with the correct selection of frequency and channel for the country of use. Wireless devices that are integrated into Hypertherm products are not allowed to be operated in countries where regulations for wireless device certification have not been satisfied. Any wireless device or antennae modification or deviation from the permissible configuration, markings, power, frequency settings, and other local regulations on radio frequency wireless device for the country of use can be an infringement of national law.

NOTICE

Any changes or modifications not expressly approved by Hypertherm, Inc. could void the user's authority to operate the equipment.

Canada Regulatory Notice

Industry Canada (IC) Statement:

This device contains IC: 24739-SMARTSYNC. This device complies with Industry Canada license exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation of the device.

The device has been found to be compliant to the requirements set forth in CFR 47 Sections 2.1091 and Industry Canada RSS-102 for an uncontrolled environment. The antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter.

Wireless devices are certified for use in specific countries because they use radio frequencies that are regulated. These regulations differ from country to country. Certificates of Radio Frequency (RF) Compliance from wireless device manufacturers for wireless devices integrated into Hypertherm products can be found at www.hypertherm.com/docs.

The user of Hypertherm products that have integrated wireless devices is responsible for ensuring that each wireless device has been certified for the country of use and configured with the correct selection of frequency and channel for the country of use. AVIS

Toute modification n'ayant pas été préalablement approuvée par Hypertherm, Inc. pourrait annuler le droit d'utilisation de l'équipement accordé à l'utilisateur.

Avis réglementaire du Canada

Déclaration d'Industrie Canada (IC) :

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :

1. L'appareil ne doit pas produire de brouillage, et
2. L'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le.

Le dispositif a été jugé conforme aux exigences énoncées dans les articles 47 CFR 2.1091 et Industrie Canada RSS-102 pour un environnement non contrôle'. L'antenne(s) utilisée pour ce transmetteur doit être installé pour fournir une distance de séparation d'au moins 20 cm de toutes les personnes et ne doit pas être co-localisés ou fonctionner en conjonction avec une autre antenne ou transmetteur.

Les appareils sans fil sont certifiés pour une utilisation dans des pays en particulier, car ils fonctionnent sur des radiofréquences réglementées. Ces réglementations diffèrent d'un pays à un autre. Les certificats de conformité relatifs aux radiofréquences (RF) délivrés par les fabricants d'appareils sans fil pour des appareils sans fil intégrés aux produits Hypertherm se trouvent au www.hypertherm.com/docs.

OBAVEŠTENJE

Sve izmene ili modifikacije koje kompanija Hypertherm, Inc. nije izričito odobrila mogle bi da ponište ovlašćenje korisnika da upravlja ovom opremom.

Bežični uređaji su sertifikovani za upotrebu u određenim državama jer su radio-frekvencije koje se u tim državama koriste regulisane propisima. Ovi propisi se razlikuju od države do države. Sertifikati o usaglašenosti radio-frekvencije (RF) od proizvođača bežičnih uređaja za one bežične uređaje koji su integrисани u proizvode Hypertherm mogu se naći na www.hypertherm.com/docs.

Korisnik Hypertherm proizvoda koji imaju integrisane bežične uređaje odgovoran je za to da obezbedi da svaki bežični uređaj ima sertifikat za zemlju u kojoj se koristi i da ima konfiguraciju koja uključuje tačan izbor frekvencije i kanala za zemlju u kojoj se koristi. Bežičnim uređajima koji su integrisani u Hypertherm proizvode nije dozvoljena upotreba u zemljama u kojima nisu poštovani propisi za sertifikaciju bežičnih uređaja. Bilo koja izmena bežičnog uređaja ili antena, ili odstupanje od dozvoljene konfiguracije, oznaka, snage, postavki frekvencije i drugih lokalnih propisa o radio-frekvenciji bežičnog uređaja za zemlju u kojoj se koristi može predstavljati kršenje zakona te zemlje.

could void the user's authority to operate the equipment.**

The certified CTRF shall not change the frequency, increase the power or change the RF characteristics and functions of the original design without permission. The utility of the certified CTRF must not affect flight safety and interfere with legitimate communications. If interference is found, it should be immediately deactivated and improved until no interference is found.

The legitimate communications in the preceding paragraph refers to radio communication operating in accordance with the provisions of the Telecommunications Act. The CTRF must withstand interference from legitimate communications or radio equipment for industrial, scientific, and medical applications.

AVISO

Cualquier cambio o modificación no expresamente aprobado por Hypertherm, Inc. podría anular la autoridad del usuario para operar el equipo.

Certificado de Número de Homologación

VU20190819-010872

Los dispositivos inalámbricos tienen certificación para su uso en países específicos porque utilizan radiofrecuencias que están reguladas. Estas regulaciones varían de un país a otro. Los Certificados de Cumplimiento de Radiofrecuencia (RF) de los fabricantes de dispositivos inalámbricos para dispositivos inalámbricos integrados en los productos de Hypertherm se pueden encontrar en www.hypertherm.com/docs.

El usuario de los productos de Hypertherm que tienen dispositivos inalámbricos integrados es responsable de asegurar que cada dispositivo inalámbrico haya sido certificado para el país de uso y configurado con la correcta selección de frecuencia y canal para el país de uso. Los dispositivos inalámbricos que están integrados en los productos de Hypertherm no son permitidos operar en países donde no se han cumplido los reglamentos para la certificación de dispositivos inalámbricos. Cualquier modificación del dispositivo o antenas inalámbricas o desviación de la configuración, marcas, alimentación, configuración de frecuencia, y otras regulaciones locales admisibles en el dispositivo inalámbrico de radiofrecuencia para el país de uso, puede constituirse como una infracción de la legislación nacional.

NOTICE

Any changes or modifications not expressly approved by Hypertherm, Inc. could void the user's authority to operate the equipment.

FCC Notice for U.S. Customers

Hypertherm SmartSYNC™ torches contain an RFID module that complies with Part 15 of the FCC Rules. Operation is subject to the following conditions:

- This device may not cause harmful interference, and
- This device must accept any interference received, including interference that may cause undesired operation.

FCC Statement for Powermax SYNC™ Plasma Cutting Power Sources

The Powermax SYNC plasma cutting power sources are exempted from FCC 15.103 (b) for it is used exclusively in an industrial plant. At least 20 cm of separation distance between the equipment and the user's body must be maintained at all times. This equipment must be installed and used per Hypertherm instructions without any modifications.

Powermax SYNC plasma cutting power sources generate, use, and radiate radio frequency energy, that may cause harmful interference. If this equipment does cause interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician.

Wireless devices are certified for use in specific countries because they use radio frequencies that are regulated. These regulations differ from country to country.
