

Powermax SYNC labor saving calculator

Time savings

Powermax SYNC™ features a single-piece cartridge consumable and new SmartSYNC™ torches with convenient power controls on the handle. With simple, twist-on installation, operators can change out cartridges in under 10 seconds without returning to the power supply. This minimizes downtime and reduces troubleshooting.

Number of plasma systems	Hourly labor cost per worker (\$/hour)	Current average hours of plasma use per shift
<input type="text"/>	<input type="text"/>	<input type="text"/>
Time saved with Powermax SYNC	Work days per year	Shifts per day
<input type="text"/>	<input type="text"/>	<input type="text"/>

Training savings

Training employees is expensive, but not nearly as expensive as sending them to work without training. By automatically setting the system to optimize the performance of the cartridge, the Powermax SYNC allows an operator to get started with much less training and reduces mistakes and rework.

New plasma operators per year	Training hours per operator saved	Hourly labor cost per worker (\$/hour)
<input type="text"/>	<input type="text"/>	<input type="text"/>

Annual savings

Consumable change annual labor savings	Training annual savings	Total annual savings
<input type="text"/>	<input type="text"/>	<input type="text"/>
