RE: Model: SmartSYNC Torch RFID Module

Per your request for certification dated 12.12.2018, an evaluation of the documentation provided for model SmartSYNC Torch RFID Module (Manufacturer Hypertherm Inc.) to Japan requirements (project NEX 366581) was performed. We wish to inform you that since this meets the "Extremely Weak Emission" limit, it is exempt from Type Approval certification in Japan.

Regards,

A handwritten signature in blue ink that reads "Jeremy Bradshaw".
